**Instructions to students:** When you are preparing your final plan of study, you must obtain department approval that you have satisfied requirements for the Molecular & Cell Biology minor. Contact an advisor in the Biology Advising Center (Biology/Physics Building Room 101) for a signature on this form. You must earn a C or better for each course in the minor.

A. **Genetics Group.** Check at least one of these courses.
   - ☐ MCB 2400. Human Genetics (3 credits)
   - ☐ MCB 2410. Genetics (3 credits)
   - ☐ MCB 3201. Gene Expression (3 credits)
   - ☐ MCB 3617. Molecular Biology and Genetics of Prokaryotes (4 credits)

B. **Biochemistry Group.** Check at least one of these courses.
   - ☐ MCB 2000. Introduction to Biochemistry (4 credits)
   - ☐ MCB 3010. Biochemistry (5 credits)

C. **Cell Biology Group.** Check at least one of these courses.
   - ☐ MCB 2210. Cell Biology (3 credits)
   - ☐ MCB 2610. Fundamentals of Microbiology (4 credits)

D. **Total Credits.** List and sum credits for all courses taken in MCB.
   - _____ credits for MCB _____ [Example: “4 credits for MCB 2000”]
   - _____ credits for MCB _____
   - _____ credits for MCB _____
   - _____ credits for MCB _____
   - _____ credits for MCB _____
   - _____ credits for MCB _____
   - _____ credits for MCB _____
   - _____ credits for MCB _____
   - _____ Total credits in 2000 level or higher courses in MCB (must be 15 or more).

---
